

## HOW TO GET ACCESS TO THE REUTERS RSS URLs

This document aims to explain how to access the Reuters RSS URLs.

1. To make use of the Reuters RSS URLs, it is necessary to have a Reuters Connect account validated for RSS feeds. Don't hesitate to contact your Account Manager or Technical Support to request it. After your account has been validated, an email should be received with your RSS key. The RSS login corresponds to the Reuters Connect username.
2. After your Reuters Connect account is enabled for RSS feeds, click over your username as shown in the image below, go to "My Settings" and scroll down to the RSS section.

The screenshot shows the Reuters Connect dashboard. At the top, there's a navigation bar with links for Feed, Planning, Live, Productivity Suite [Beta], and Stock. On the right side, there are user stats (1302 PTS, 2 messages, 24 notifications) and a dropdown menu for 'Tania Vivero'. Below the navigation, there's a 'Feed Settings' section with tabs for Marketplace, Archive Picture, Archive Video, Audio, Graphics, Live Video, Packaged Video, Pictures, Raw Video, Reuters Ready, and Text. Under Marketplace, checkboxes are selected for 'All Marketplace', 'Points Content', and 'Free Content'. On the right side of this section, there are links for Privacy Policy, Copyright Notice, Website Terms, Help, and Sign Out, along with 'My Settings' and 'Download History' buttons. At the bottom of this section are 'SELECT ALL', 'CLEAR ALL', and 'APPLY' buttons. Below this is the 'RSS' section, which includes a 'RESET RSS KEY' button. It has two dropdown menus: 'Maximum Number of Items' (with options 10, 50, 100) and 'Items Published In Last' (with options 2 Hours, 8 Hours, 24 Hours). A red arrow points from the 'Items Published In Last' dropdown towards the 'RSS' section title. At the bottom left of the 'RSS' section is a 'All Feeds' dropdown, and at the bottom right is a 'Chat with an Expert' button.

3. The RSS section should show the RSS URLs available based on the subscribed channels.
4. Copy/Paste the RSS URLs into your RSS reader or integrator tool.
5. To do particular searches within an RSS feed, an RSS API should be used. Ask our technical team for the RSS API technical documentation.

## APPENDIX A – TECHNICAL SUPPORT

There are a variety of means by which you can contact Thomson Reuters for support.

One of the easiest is to send an email to [ReutersMediaSupport@thomsonreuters.com](mailto:ReutersMediaSupport@thomsonreuters.com), which a customer representative should contact you with within 15 minutes.
